Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Non-Compliance

1. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414. A new declaration is needed.

Applicants fail to recognize that oath/declaration fails to point out specifically where in the prior art (with column and lines indicated) is considered anticipatory to the instant application.

2. Claims 15-31 are objected because in reissue practice, the amendment made is based on the patented claims, not on the preliminary amendment. The status for claims 15-31 should have been (New), not (Previously Presented).

3. Regarding new claims 15-31, applicants are required to point out the differences between the new claims and the original sets of patented claims. If a claim is amended during reissue prosecution, a parenthetical expression "(amended)," "twice amended"," etc., should follow the original claim number. 37 CFR 1.173 (b)(2). Alternatively, applicant may effectively re-write a claim by presenting it as a new (fully underlined) claim with a new claim number, and canceling the old claim. Brackets and underlining

Art Unit: 1713

are to be used to reflect only those changes in the text from the original patented text and not from any previous amendment in the reissue application 37 CFR 1.173(g).

4. Regarding new claims 17-31, applicants are required to indicate how these new claims are different from the original set of the patented claims 1-14, and indicate how these changes are made to correct error without any deceptive intention on the part of the applicant.

5. Claims 1-8, 10-31 are objected In view of the non-compliance issues set forth above.

6. Under 37 CFR 1.176 permits the examiner to make a requirement for restriction. Where a restriction requirement is made, the original patent claims will be held to be constructively elected. (See MPEP 1450) The invention of claims 1-8, 10-31 are considered patentably distinct from the patented claims 1-14 and is considered a non-elected subject matter of patented invention of claims 1-14. The invention of instant claims 1-8, 10-31 is drawn to the preparation of emulsion or a suspension, classified as 524/800 while the patented claims 1-14 are drawn to an invention classified in 526/161.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William K Cheung whose telephone number is (571) 272-1097. The examiner can normally be reached on Monday-Friday 9:00AM to 2:00PM; 4:00PM to 8:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David WU can be reached on (571) 272-1114. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
